

ILO Information for Administrators

Fee Structure:

Courses available through ILO are either free or require payment. ILO developed several courses as well as licensed some courses from Florida Virtual Schools and is able to offer them free to Iowa schools. The Iowa AP Online Academy offerings are also free to Iowa students. **Free** courses through ILO are marked “**ILO**”. **Free** courses from Iowa AP Online Academy are marked “**Iowa AP**”.

Many schools in Iowa have developed their own content and are selling these courses to schools in Iowa. Another fee-based participant in ILO is Kirkwood Community College’s High School Distance Learning (HSDL) program. *ILO acts as a broker* by helping these schools share their courses, for a fee, with other schools in Iowa. **Fee-based** courses are marked as “**Brokered**”.

ILO brings all of these offerings together in one convenient location.

Delivery Method and Timeframe:

Distance learning classes can be Internet-based, ICN-based, hybrids, or some other combination of internet-based communication and video. Many courses run on a traditional semester or full year basis, while others have open enrollment with flexible start dates. All are taught by highly qualified Iowa teachers.

Go to <http://iowalearningonline.org/classes.cfm> for the most current information on courses available.

. Following is a partial list of courses from the ILO website showing delivery method, cost and source.

Course Title	Delivery	Cost	Source	Timeframe
